## **MAINTENANCE METHODS FOR DIFFERENT SURFACES**

---

**GREEN LAUZONITE BOARD:**

(50 Years Warranty)

If the chalkboard must be cleaned with water, make sure that all the chalk writing has been erased with a felt brush. Use a bucket of hot water, a soft, clean cloth and a little dishsoap. Soak the whole board thoroughly and repeat as necessary to ensure the removal of all chalk residue.

Never write on a damp board.

Never use cleaning products which may contain oil or wax; use a good quality chalk and felt brushes.

**NATURAL CORK BOARD :**

(2 Years Warranty)

A slight sanding should be sufficient to remove spots and dirt.

**DE LUXE CORK BOARD :**

(2 Years Warranty)

Use a little Varsol on a dry clean cloth.
