Good-looking and with an excellent price:quality ratio, these boards win the popularity contest with our customers! Made of high-quality melamine, they fit in perfectly with the decor of your conference room. Model 717 includes a built-in projection screen. These boards come in a range of five exterior finishes: light oak, medium oak, black oak, mahogany and walnut. On request, and for a small supplement, we can give the board your choice of finish.

These boards are fitted with piano hinges. The central writing surface is of high-quality magnetic steel in pearlized white. The two side doors each hold display panels with a flip chart on the left one.
