CANADIAN BLACKBOARD COMPANY LTD

## GLASSBOARDS

## Wall-mounted boards

# WHITE

## Enhance your decor

Equip your offices and collaborative work spaces with our white glassboards. Because they're made of **6 mm (1/4 in) tempered glass**, they are very safe, and their polished edges lend your work environment a sleek and stylish look.

## Unparalleled purity

We use **DIAMOND** quality tempered glass (low in iron, so no greenish tint) that provides outstanding clarity and exceptional shock and scratch resistance.

## Personalize your glassboard

Select a horizontal or vertical board, depending on what works best for your room, and then choose from a number of options (see page 16).

## DIGITAL PRINTING

### Made to measure for you

Our technology allows us to print **high-definition images in any color** so you can personalize your glassboard. So whether it's a meaningful photo, an inspiring quote, or your logo, your creativity is the only limit to what we can put on your glassboard.

## Show off who you are

Transform your glassboard into a **one-of-a-kind** magnetic writing surface by incorporating graphic elements that are important to you and your organization.

Wall-mounted boards

## WALL-TO-WALL

### LARGE SPACES

Our wall boards allow you to use almost the **entire wall**, transforming it into a **gigantic, high-quality** writing surface. Since the board is magnetic, you can use it to post important documents. We can cover as much space as you want by placing 8 ft. by 4 ft. sections end to end.

**Maximum dimensions per board:** 96 in x 48 in (2440 mm x 1220 mm)

## Create a stimulating atmosphere

A wall-to-wall board also allows you to take advantage of a wide range of colours and digital printing options that will stimulate your teams' creativity and spur **innovative ideas** for growing your company.

## THE CLASSIC

### Reinvent traditional dividing walls

Our mobile glassboards add a touch of class to your work areas and allow your teams to gather wherever they want. Our **CLASSIC** model, with its slim, rectilinear shape, gives your mobile board an ultra refined look.

### The elegance of wood

Add the cozy, natural look of wood to your CLASSIC or INCLINED model.

◀ Choose the finish that best suits your space.

# THE EASEL

## Stay mobile

Bring some glassboard chic to your meeting rooms with our **EASEL** models. Their elongated shape makes them light and portable so you can move your meetings around easily. Their **stylish profile** ensures a beautiful consistency in style that will blend well with your furniture.

Available in ten (10) colours

## Wall-mounted boards

### CLEAR

### FROSTED

Our frosted wall boards provide a dry-erase surface that adds texture to your work environment.

## Simply beautiful

Our **clear** wall boards allow you to provide a discreet writing surface that will blend in perfectly with the colour of your wall. Our **frosted** wall boards add both texture and a distinctive, neutral element to your decor.

# TECHNICAL INFORMATION

## Specifications

Our **6 mm**, DIAMOND quality (low in iron) tempered glass provides a sturdy and elegant dry-erase surface, for a sleek, professional look. Steel sheets can be installed to make the glass magnetic. The edges are **always polished** and **completely safe** and an infinite array of colours allows you to find the ideal match.

## Warranty

The surface of our glassboards is guaranteed for **50 years**. The product's durability makes it the perfect choice for a range of uses.

## Maintenance

- ▶ To **quickly** clean your glassboard, spray the surface with a glass cleaner. Rub with a soft cloth and wipe dry.
- ▶ For **in-depth cleaning**, wash with hot soapy water. Rinse with clear water and dry.

You'll love how easy our glassboards are to maintain.

OPTIONS

Corners

Depending on the look you want, choose **square** or **rounded** corners.

Anchoring systems

We offer two different ways of attaching your glassboard to the wall:

- ▶ An **invisible** system (A) \*
- ▶ A **visible** system with aluminum fasteners (B)

\* For magnetic boards only.

Dimensions

A number of standard sizes are available. However, feel free to ask for a specific size for your project.

4' x 4'	4' x 5'	4' x 6'	4' x 8'
3' x 4'			
2' x 3'			

# ACCESSORIES

## Magnetic pawns

Made of ultra-strong neodymium to firmly hold posted documents to the glass.

## Markers

A set of 5 rechargeable, dry-erasable markers

## Magnetic tray

12" wide, highly magnetic aluminum tray specially designed for the glassboard

## Magnetic brush

With 2 washable, interchangeable cloths.

## INSTALLATION

### Z-anchors (hidden) \*

- ▶ It's important to find solid studs in the wall to which to fasten the board.
- ▶ Decide at what height you want to install your board.
- ▶ Install the two **Z-anchors** on the wall, carefully checking the distance between them at several points, then place the board on top of them.

\* For magnetic boards only

Thickness

Cross-section

\* The glassboard's weight varies with its size. So it's essential to find the studs.

## Edgegrip fasteners (visible)

- ▶ Decide at what height you want to install your board. To be safe, it's better to screw it into the studs. We will provide anchor bolts if no studs are available.
- ▶ First attach the Edgegrip fasteners at the bottom of the wall.
- ▶ Measure the height of the glassboard and add  $\frac{1}{4}$  in. The new measurement indicates where to screw in the upper fasteners at the end of the installation process. For example: If you install a glassboard that is exactly 48 in. high, the fasteners will be  $48 \frac{1}{4}$  in. apart, center to center.
- ▶ Once the lower fasteners are solidly attached to the wall, install your glassboard on them. Then install the upper fasteners  $\frac{1}{4}$  in. above the board. The extra  $\frac{1}{4}$  in. allows you to screw the fastener into the wall with the glassboard in place.
- ▶ Finish installing the board by tightening the small screws with the Allen key provided. This will prevent the board from moving. Then stick on the little caps that hide the screws on the fasteners.

4' x 6' ▶ 6 fasteners  
4' x 8' ▶ 8 fasteners
